

Aigner Label Holders. Smartest Purchase Since Manhattan Island.

Peter Minuit knew a deal when he saw one. Although on a somewhat smaller scale, Aigner Label Holders offer the same opportunity. These little gems pay you back in less than 12 months and contribute to your bottom line ever after.

The cost of materials is 50% less than self-adhesive labels. And there's no time-consuming scraping to remove them, just slip in a replacement insert in

seconds. They apply with self-adhesive, magnetic or hook-and-loop backings. Plus, labels are protected by clear, matte plastic that allows accurate reading and scanning. Aigner labels can be imprinted in-house with a laser or ink-jet printer for professional looking signage at virtually no cost.
